The Coffee Beans Origin

Indonesia (Bali)

Paradise Delight

Welcome to the 'Paradise' of Southeast Asia, the wonderful island of Bali. Beyond its exquisite scenery beauty, Bali also cultivates a premium grade Arabica coffee that has become one of the jewels of Bali. Grown at the altitude of 900 feet above sea level, the Arabica coffee beans are organically cultivated on the highland volcanic region of Kintamani that offers a wealth of natural resources and agriculture. While the farmers are members of a farming system that contributes to the international fair trade.

The Kintamani coffee is exceptional for its distinguished sweet orange flavor that is simply irresistible. The Coffesso's 'dry' medium-roasted process enriches the authenticity of the Kintamani coffee beans with a sweet aroma of roasted nut, brown sugar, and caramel. Taste the Coffesso Kintamani coffee, to experience delicate sweetness, mellow bitterness and balanced acidity, altogether. It is a great refreshing all-around coffee, which allows coffee connoisseurs to experience a little taste of 'paradise' anytime.

Recommended Serving : as Espresso & Long Black
