

**QUALITY ESPRESSO**  
Capture the Essence

## FUTURMAT F3 ELECTRONIC 3G

- Fix water connection
- 3 phase / can be converted into 1 phase
- Brew water temperature between 88 – 94 degrees celcius
- Volumetric ( coffee product and hot water )
- Touch pads ( there are 5 button coffee proucts in each group + 1 button hot water )
- Cup warmer
- Steam wand has 4 holes on the end and hot water outlet
- Group head is precision engineered materials
- Pressure Gauge ( brewing pressure and steam pressure )
- The body panels have been treated with a highly resistant two-coat metal paint process
- Power 4600 watt, voltage voltage 220 – 240 V/50Hz
- WxDxH = 94x57x46cm<sup>3</sup>
- Boiler capacity = 18 liters
- Weight : 76kg
